SWORD PRESENTED.

Admiral Dewey Receives the Gift Voted by Congress.

CEREMONY AT THE CAPITOL.

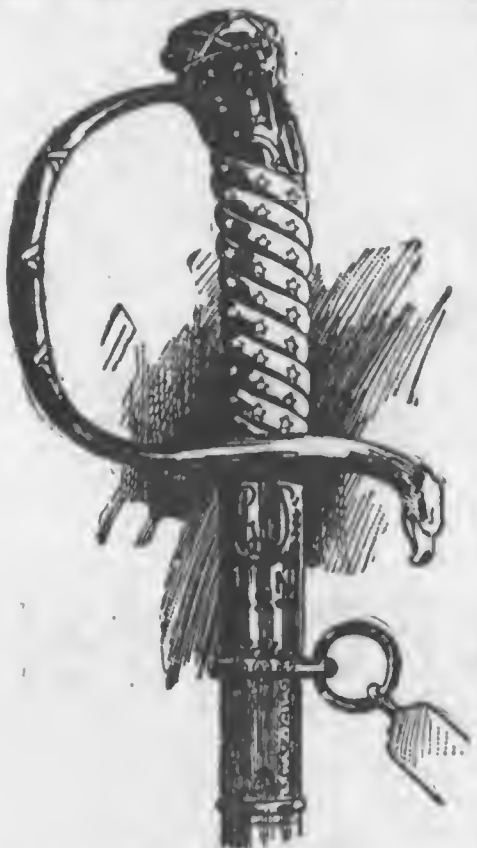

President McKinley Confers the Nation's Emblem of Honor.

FINE PARADE AT WASHINGTON.

From the Time the Hero of Manila Left the McLean Home Until His Return He Received Continuous Ovarions From Crowds.

Washington, Oct. 3.—The start from Mrs. McLean's residence was made promptly at 10 a. m. Admiral Dewey had breakfasted at 8:10 with his son and Lieutenants Brumby and Caldwell. He emerged from the house with Chairman Moses of the local committee and the two took their seats together in Mrs. McLean's carriage. When the admiral appeared resplendent in heavy epaulettes and gold lace, the great throng that had assembled in the adjacent streets and in Farragut square, broke out into a long and loud burst of applause.

Accompanied by an escort of police and committeemen and headed by the Marine band the admiral was driven to the White House through cheering

crowds. His progress was slow and he repeatedly bowed and smiled his acknowledgment of the greetings given him.

He entered the White House grounds by the west gate and on reaching the portico Admiral Dewey quickly alighted and was shown into the white room where he was met by the president and members of the cabinet.

Only a few minutes elapsed before the admiral appeared with the president and took seats in the White House carriage. The members of the cabinet occupied the next three carriages, Former Secretary Alger sitting with Secretary Long, and then followed the various officials who had been assigned places near the central figure. The carriages swept briskly down the curved driveway into Pennsylvania avenue, there was a blare of bugle commands, a clash of bands and, the great procession started.

It was a magnificent and inspiring sight as the parade swung into the long stretch of the handsome thoroughfare. Through the broad street, cleared from curb to curb with the majestic capital towering from the further end and the treasury behind, the marching hosts moved between two solid walls of shouting, gesticulating humanity, banked solidly from the curbs, and rising, tier on tier, on every conceivable kind of structure, to the crowded roofs and windows, while above, below, and all about fluttered flags, bunting and Dewey emblems, forming a background of brilliant color.

At the head of the line rose Major General Nelson A. Miles, commanding general of the army, in the full uniform of his rank, with the yellow field marshal sash from shoulder to hip. He was astride of a superb gray horse, richly caparisoned.

Back of him was rank after rank of military aides, all officers of high rank. The brilliant coated Marine band added color and inspiring music to the gay scene, and following them came every describable kind of soldier, sailor and

marine, mounted and afoot, infantry, artillery and cavalry; the marines in their short blouses and helmets, the jackies from the Raleigh and other warships, battery after battery of light artillery, the mammoth eight-inch siege guns of the Seventh artillery, each drawn by eight horses. Then the crimson trappings of the artillery changed to the yellow of cavalry as line after line of the yellow-plumed troopers rode by.

And then Dewey. All that had gone before was but a brilliant prelude to the coming of the man of Manila riding with the president on his way to the capital to receive the nation's tribute. They were in the president's private carriage seated on the rear seat, the president on the right. Mr. McKinley raised his hat only occasionally, leaving to the admiral to acknowledge the plaudits of the multitude by lifting his chapeau.

What an ovation! From end to end the avenue rang with deafening cheers and the banks of humanity took on life and motion, as flags and handkerchiefs were waved madly.

Following the admiral came the officers and men of his flagship, the Olympia, in double ranks, stretching across the avenue, and then distinguished officers of the army and navy.

Still another brilliant division was formed by the governors of states, mounted and accompanied by their staffs. At their head rode Governor Edward C. Smith of Vermont, the native state of Dewey, with a numerous staff brilliantly uniformed.

At the capital two committeemen preceded the president and Admiral Dewey. The waiting crowd uncovered and the president and admiral promptly did the same as they passed rapidly into the lobby of the senate. Dewey was followed by his war captains and the full cabinet acted as an escort.

The president with his cabinet was shown into the president's room, while Admiral Dewey with his captains occupied the room of the vice president. There was a wait of about half an hour, then the party took up their march to the stand in the same order as they had entered the capitol.

The band struck into the soul-moving strains of "Hail to the Chief" as the procession moved slowly down the steps to the stand.

The crowd cheered long as the party took their seats, Admiral Dewey rising with bear head to respond to the ovation. A colored servant in livery threw a naval cloak over the admiral's shoulders as he took his seat.

Exercises at Capitol.

Prayer was offered by Rev. Dr. Bristol, President McKinley's pastor. Ross Perry made the introductory address which was lustily cheered. He ended by introducing Secretary Long, who was received with enthusiasm, and standing bareheaded addressed his remarks closely to Dewey who remained bareheaded and seated. As Secretary Long concluded he passed the sword to President McKinley. The latter rose and faced the admiral. Dewey was visibly affected and brushed his gloved hands across his eyes before standing at attention. The president said:

"Admiral Dewey—From your entrance into the harbor of New York, with your gallant crew and valiant ship, the demonstrations which everywhere have greeted you reveal the public esteem of your heroic action and the fullest of love in which you are held by your country.

"The voice of the nation is lifted in praise and gratitude for the distinguished and memorable services you have rendered the country and all the people give you affectionate welcome home, in which I join with all my heart.

"Your victory exalted American valor and extended American authority. There was no flaw in your victory; there will be no flaking in maintaining it. (Great applause.) It gives me extreme pleasure and great honor in behalf of all the people to hand you this sword, the gift of the nation voted by the congress of the United States."

The president handed the admiral the sword, with a deep bow and there was a roar of applause as Dewey received it. The crowd was hushed as he turned to reply. He said:

"I thank you, Mr. President, for this great honor you have conferred upon me. I thank the congress for what it has done. I thank the secretary of the navy for his gracious words. I thank my countrymen for this beautiful gift which shall be an heirloom in my family forever, as an evidence that republics are not ungrateful, and I thank you, Mr. Chairman, and gentlemen of the committee, for the gracious and kindly welcome which you have given me to my home."

The band played "The Star Spangled Banner" and then Cardinal Gibbons pronounced the benediction. There was the usual bustle and confusion as the ceremonies closed and then the crowd rearranged itself, a broad path was cleared across the plaza and Ad-

miral Dewey stood up beside the president to review the parade.

At the conclusion of this parade Admiral Dewey was escorted by the civil committee to the residence of Mrs. McLean.

After Admiral Dewey and the president had left the stand there were loud calls by the crowd for Schley, and in response that officer stepped to the vacant stand and bowed repeatedly to the people.

Description of Sword.

The sword, except its steel blade and the body metal of its scabbard, is entirely of 22-carat gold. On the pommel is carved the name of the battleship Olympia which was Dewey's flagship at Manila and the zodiacal sign for December, in which lucky month Dewey was born. Circling these is a closely woven wreath of oak leaves, long employed to indicate and adorn rank.

Below these the pommel is embraced by a gold collar, on the front of which are the arms of the United States. The blue field of the shield is in enamel. Below are the arms of Vermont, Dewey's native state with the motto, "Freedom and Unity," and the colors of the shield in enamel. The plain part of the gold collar is decorated with stars and a graceful finish is given to it by a narrow band of oak leaves. The sword blade is Damascus-tempered with the inscription, "The gift of the nation to Rear Admiral George Dewey, U. S. N., in memory of the victory of Manila bay May 1, 1898."

FAILED TO COMPLETE

The Course Within the Time Limit Prescribed For the Race.

NEITHER BOAT IS A VICTOR.

Owing to the Light Breeze the Yachts in the International Contest Did Not Cover the Distance at Sea.

New York, Oct. 3.—The first race of the series for the America's cup between Columbia and Shamrock proved one of the most remarkable of any yet sailed for the greatest of all trophies.

A light breeze prevailed, varied in spots by a puff or two, and in turn both boats enjoyed the benefit and suffered a change in position.

Excursion boats, of which there were hundreds, interfered in a measure with the progress of the racers and in this respect Columbia suffered most.

The official start was as follows: Shamrock, 11:15:37; Columbia, 11: 16: 20. Shamrock gained a hundred yards at the start and she increased her lead during the first hour. Columbia's sails did not set properly particularly her balloon, and she disheartened her followers by her lifeless work.

Suddenly, however, with a change of sail and a puff of breeze, the American cup defender took on new life took on new life and within a few minutes she had overhauled her rival. They rounded the mark as follows: Columbia, 1:38:45; Shamrock, 1:40:11. The enthusiasm was wild.

On the beat back there was a succession of small tacks, Columbia making move for move with Shamrock until about 2:45, when, with Shamrock standing off shore, Columbia split tacks with her, keeping on in-shore for 10 minutes. This was an unfortunate move for Columbia's skipper, for the wind was not only lighter in-shore, but shifted to eastward, so Shamrock, which tacked at 2:46, was greatly benefited by the change.

The Shamrock gained by this combination of circumstances the lead which she had lost early in the race.

The time limit of 5:12 hours expired at 4:45. At that time both boats were three miles east of Highlands and the same distance from the finish line at Sandy Hook lightship and Shamrock was ahead. At the time the race was called off a person could toss a biscuit from the Shamrock to the Columbia.

RACE IN DETAIL.

It Was Nip and Tuck Between Columbia and Shamrock.

New York, Oct. 3.—On board the yacht Shamrock which sailed the first of the series for the America's cup, preparations for the great international event were begun with the dawn.

At 8 a. m. the day was fairly clear and with a crisp north to northeast wind blowing 12 to 15 knots an hour.

The horizon to the south and east was comparatively clear, observation in that direction being 15 miles. A heavy haze reached over the Long Island shore and in the harbor, cutting off the range in that direction to about seven miles. The Shamrock passed out by the Hook, in tow at 9 a. m. with her two head sails in stops.

Columbia reached Sandy Hook light ship about 10:12. Strung out astern

there was a large fleet of excursion boats, steam yachts and six torpedo boats, all headed for the lightship.

At 10:15 the wind was almost due northeast, blowing about 10 knots an hour, a good club top sail breeze.

At 10:30 the torpedo boat flotilla and guard boats cleared the course. The referee's and judges' boats took their places.

The course was 15 miles to leeward and turn down the Jersey shore. The Shamrock did not set her spinnaker until five minutes after crossing the line, during which time the Columbia pulled back somewhat on her.

At 11:12 the starting gun was fired. The Shamrock crossed the line first with the Columbia a few seconds later.

The Shamrock appeared to have a little the better wind and increased her lead. The excursion boats closed up and took the wind out of Columbia's sails. The Shamrock had a full breeze and was not affected by the excursion fleet. At 11:45 the Columbia was most becalmed by excursion boats.

At 12:05 p. m. the yachts had sailed about six miles of the course. The Shamrock during the previous 10 minutes gained on Columbia and seemed over half a mile ahead.

The fleet of excursion steamers that so interfered with the Columbia's sailing were moved from her track and since she gained rapidly on Shamrock. The stake boat was anchored east of Elberon. The Columbia gained rapidly on Shamrock. Both boats gybed. The Columbia increased her speed and soon passed the Shamrock.

Columbia at 1:22 headed for the stake boat. Her lead was constantly increased. As the yachts neared the turning point the Shamrock had swung her boom to starboard.

The Columbia turned the stake at 1:33 p. m. and the Shamrock turned it two seconds later.

At 2:14 p. m. the wind had decreased to about five miles an hour. Shamrock appeared to have overtaken and passed the Columbia. Both yachts went about on starboard tack. It was stated at 3:06 p. m. that the yachts would require more wind than they had to finish the race within time limit.

The Columbia struck a light breeze and forged again, but she was in the rear and had a hard proposition for the rest of the course.

Returning the Flag.

Indianapolis, Oct. 3.—Indiana is carrying back to the south the Confederate flag which her soldiers captured from Terry's Rangers in the civil war. Accompanied by the members of his staff and the representative of the Indiana department of the Grand Army of the Republic, Governor Mount set out on the errand. The formal exercises incident to the return of the flag will take place Thursday at the Texas state fair at Dallas.

Secured Canned Meats.

Chicago, Oct. 3.—It is reported here that the British army has placed large orders for canned meat and tinned fruit with some of Chicago's large packing concerns. An official of one of the large packing companies, who did not wish to be quoted, said he understood that one firm secured a large contract with the English government for the shipment of canned meats with which to supply the army while in the Transvaal.

Strike at Cramps.

Philadelphia, Oct. 3.—Seven hundred boilermakers and iron shipbuilders with about 200 helpers went on a strike at Cramp's shipyard for a working day of nine hours. The shipbuilders include riveters and caulkers and the strikers say the action of these men and the boilermakers will practically tie up the entire plant. The machinists and blacksmiths, numbering nearly 200 have been on strike for several weeks.

Made New Arrangements.

New Orleans, Oct. 3.—There was again some excitement on the floor of the New Orleans cotton exchange due to an unaccountable lapse of the regular reports from Liverpool, and for a quarter of an hour there were delays in the receipt of advices. Arrangements were promptly made with the Postal Telegraph company for complete reports, as a check against the regular reports of the Western Union.

Venezuelan Court Rises.

Paris, Oct. 3.—After the court had risen former President Harrison professed ignorance as to how the award would go. Mr. Harrison did not seem anxious regarding the subject. Mr. H. Vignaud, secretary of the American embassy, who called upon Mr. Harrison at the same time, said the latter's argument was very much appreciated by the court.

Indiana Town Burned.

Washington, Ind., Oct. 3.—Monroe City, 15 miles from here, was swept by fire and many families are homeless. The fire department of this city has been sent to the scene. Monroe City has a population of about 1,200.

CARNIVAL AT DALLAS.

Democratic Doctrine Expounded From Several Platforms.

DOLLAR DINNER AT CLOSE.

Thousands of People Hear the Noted Orators of the Party, Including Colonel W. J. Bryan of Nebraska.

Dallas, Tex., Oct. 3.—The early trains brought in large delegations to swell the throngs of Democrats from the west and southwest who have come to attend the carnival.

Democratic doctrine was expounded from half a dozen platforms morning, afternoon and evening, but many of the prominent party men who are here from all parts of the country are yet to be heard. The crowds are large and the interest is heightened by the programs of oratory prepared for their entertainment. The state fair, usually the event of the year in this section, has been almost lost sight of in the political demonstrations which were arranged as an adjunct to the agricultural exhibits. Prize butter and blue ribbon poultry have proved tame topics of discussion when placed in competition with expansion and the trusts.

The fair grounds were crowded long before 10:30, the hour fixed for the first speech of the morning. Mr. Bryan, Judge Tarvin of Kentucky, Colonel J. G. Johnson of Kansas, the new chairman of the Democratic executive committee, and many less prominent speakers were slated to appear during the day.

The dollar dinner at the auditorium closed the carnival. Much is expected of this affair in point of attendance and enthusiasm and it promises to be a fitting wind-up of the two days' celebration.

Mr. Bryan touched upon trusts, Mr. William Sulzer of New York had for his text "The Democratic Platform Popular in the East. O. H. P. Belmont and Judge Tarvin spoke upon Democracy in their respective states.

"Trusts" was the theme of Colonel M. C. Wetmore of St. Louis, while ex-Governor Stone of Missouri discussed party matters under the title "Ways and Means." Governor Jones of Arkansas, J. G. Johnson, Champ Clark and Harry B. Hames also spoke.

An overflow meeting was provided for with Senator Berry of Arkansas and Congressman Benton of Missouri as the speakers.

Mr. Bryan and party arrived at the grandstand at 10:25. Ex-Governor Crittenden and Major Salmon of Missouri, Judge Tarvin of Kentucky, Governor Sayers and Senator Berry of Arkansas, Champ Clark, John I. Martin, Congressman Sulzer, O. H. P. Belmont and the entire Texan delegation sat on the platform.

The Hon. James P. Tarvin of Kentucky, president of the Ohio Valley League of Bimetallic clubs, said in part:

"The Democracy of this nation now stands upon a declaration of principles applicable to all classes, all kinds, and all conditions. It is a declaration suited not only to the poor, but to the rich as well; to those in the east, the west, the north and the south; to the black and to the white alike, and to all men without distinction of race, color or religion.

"We claim that individual labor and enterprise constitute the basis of all that is, of all that has been and of all that can be. We assert that every dollar of wealth in this land owes its being to the sweat of labor; that no corporation ever created a dollar; that no trust ever created a dollar, and that no government ever created a dollar. Every corporation on earth might die, the world would still live; every trust in the world might dissolve, the world still live; every government might go and still the people could live; but when the sweat of labor ceases to flow, when the back of labor ceases to bear its burden, then the corporations, the trusts, the governments and the world no longer live."

Steamer Ashore.

St. John's, N. F., Oct. 3.—The Warren line steamer Bay State, Captain Walton, from Liverpool Sept. 25 for Boston, with general cargo, is ashore near Cape Race and will likely prove a total wreck. Her crew and a number of cattlemen who were passengers are adrift in boats which are lost in the fog. The boat has reached Cape Fuller.

Dublin, Oct. 3.—John Dillon, nationalist member of parliament for East Mayo, has declined to speak at the laying of the foundation stone of the memorial to Charles Stewart Parnell next Sunday on the ground that the Parnellites are striving to make party capital out of the movement.

WEATHER FORECAST.—Increasing cloudiness to-night; Thursday, rain.

Even some Republican editors are disgusted at the persistent efforts of the administration to humiliate Schley and elevate Sampson. The Chicago Tribune enters its remonstrance against the whole business in these words:

The assignment of Admiral Sampson to the command of the South Atlantic Squadron seems to be the Yankee idea of rewarding one man for subservience to his superior officers and punishing another for winning a great victory which really ended the war with Spain. Sampson is rewarded because he obliged the Secretary of the Navy and the Massachusetts Senator, Lodge, who has a magnificent establishment at Nahant, by detailing the Minneapolis and Columbia, two of the most efficient cruisers in our navy, to do patrol duty on the Massachusetts coast so that no damage might be done by some venturesome Spanish fishing smack to the property of the cottagers, who had left the rural districts as scared as their predecessors were in 1812, when there was some occasion for alarm. Admiral Schley, from whose command one or both of these cruisers was detached, was opposed to the detail, and would have kept the two vessels in service where fighting was to be done. He has never since been in favor with the Secretary or the other "solid" men from Boston, while Admiral Sampson goes up to the top of the list. Sampson, who never was in a battle in his life as a commanding officer, will have a good time at the Charlestown navy yard, while Schley is "clinging to the mast" somewhere around Cape Horn.

THE ROOSTER

Will Be The Democratic Emblem, of Course The Brownites Abandon Their Claim.

FRANKFORT, Ky., Oct. 2.—After loudly proclaiming for several weeks that it was the regular Democratic party, and that its ticket would be placed under the Democratic rooster on the ballot in November by the Republican Secretary of State, the Brown-L. and N. organization this afternoon petitioned Secretary Finley to give it a place.

The petition was presented to Mr. Finley by M. H. Guerrant, of Louisville. The boasted 10,000 signatures were not attached to it, only 3,115 persons having signed it, according to the Secretary, and a survey of the lists shows at least two-thirds of these to be straight Republicans. Most of the signatures were secured in Louisville. The emblem selected is, as stated in the Courier-Journal several days ago, the picture of Brown and Johnson, with the words "Honest Election Democratic ticket."

In filing the petition Mr. Guerrant stated that no other document would be filed. Secretary Finley responded that he was glad such a conclusion had been reached, as it relieved him of the embarrassment of making a decision as to which ticket should go under the rooster. It has been the opinion of the Democratic leaders here generally for a few weeks past that Secretary Finley would give the rooster to the regular party, and it is said that he intimated to the Brown men that he could not do anything for them.

Electrocuted.

Scientists and electricians cannot agree upon the number of electric volts that are necessary to cause a cessation of life in the human body. Some claim that an excessive shock is more likely to cause incineration rather than instantaneous death; but if they would turn their attention to prolonging and increasing the pleasures of life the public would hail the result with more satisfaction. For instance the electricity generated in a wave of laughter is after all the most pleasant shock, and to see a large assembly moved by a current of uncontrollable mirth while witnessing the performance of Fitz and Webster's new musical farce comedy, "A Breezy Time," places beyond dispute the fact large volts of laughter are better than volts of electricity any day. "A Breezy Time" will be seen at the opera house October 7th.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and I thank God I am saved and now a well and healthy woman." Trial bottles free at J. Jas. Wood's drug store. Regular size 50c. and \$1. Guaranteed or price refunded.

GOOD GAINS

Indicated by the Democratic Poll Now Being Taken of the State—Bollers Offset by Others.

FRANKFORT, Ky., September 26.—The members of the Democratic Campaign Committee have received reports from twenty-three counties, which have been completely polled by school districts, and the results are such as to justify the greatest confidence in the result of the coming election. Some surprising Democratic gains have been found and in one county in particular the majority promises to be nearly one-half greater than was anticipated. In one precinct of Shelby County, for instance, where the poll was made with the utmost care, a Democratic majority of seventy was shown and the precinct has never given more than fifty majority. The poll accurately locates the Brown movement, which manifests itself in spots. In many precincts there are no Brown men. In others the number of Brown men is considerable, but in every case of this sort some local cause for the disaffection is found.

The Democratic gains, as a whole, are vastly greater than the losses from the Brown movement. The poll, even in its incomplete condition, demonstrates the fact that there is but one way in which Goebel can be defeated—by the lavish and effective use of money. There is, of course, no question but one on this point. There will be plenty of money to use against Goebel and the disposition to use it is undoubted. Enough has already been spent in hiring orators and buying newspapers to demonstrate that fact. The Democratic managers are convinced, however, that the issue is so clearly drawn between Goebel and the corporations that money will not buy enough votes to defeat the Democratic nominee.

LAWS USELESS

When Men Like Hanna Have Control of Their Enforcement.

[New York Evening Post.] In Ohio the Republican State convention "pointed with pride" to the action of the last Republican Legislature in passing "the stringent law now on our statute books prohibiting the organization of trusts," and proceeded to "denounce such unlawful combinations as inimical to the interests of the people."

The Democrats countered very neatly, however, by "commending the present Attorney-General of Ohio for his earnest efforts to enforce the statutes of Ohio against such illegal combinations," and pledging their own nominees for this office to the enforcement of these laws—the point of which is found in the fact that the present Attorney-General is a Republican, and that he was refused a renomination after taking "the stringent law" in earnest.

The personal aspect of the Ohio campaign in respect to this issue is interesting and amusing. Hanna is the best representative in the country of trusts. He absolutely controlled the Republican convention. He named the candidate for Governor. He refused a renomination to the present Attorney-General.

TRUST PRICES.

As Shown in the Advanced Cost of Clothing and Shoes.

[New York World.] We must pay more for our clothing and our shoes this year than we have paid for several years past.

We must pay more for our shoes because the Dingley tariff placed a duty on hides in order to enrich the great, grabbing cattle trust.

We must pay more for our clothing because of the heavy duties placed by the same law on wool and on woolen goods for the "protection" of our sheep raisers.

And the increased cost will not be trifling in amount. Every overcoat and every suit, the tailors say, will be advanced \$5. Every pair of shoes that a year ago cost \$3 will cost \$4.50 or \$5. Multiply these advances by the 70,000,000 people who must have several suits and several pairs of shoes apiece this year and the total will represent a very heavy sum of money which the law takes out of the earnings of all the people and gives to a favored and protected few. The thing is worth thinking about.

DR. JAMES DAVIDSON BIGGS and Miss Adelaide Burchett will marry to-day at Louisa. Miss Burchett is a daughter of Drury J. Burchett, formerly United States Marshal.

KENTUCKY CROPS.

The Closing Bulletin of the Weather Bureau for the Season of 1899.
Corn and Tobacco.

Cool, dry weather prevailed until the 28th, when light general showers occurred; this was followed by cool weather, with general heavy frosts on the morning of the 30th. Some late corn, sorghum and a little late tobacco were injured, but the damage was not extensive, as the bulk of these crops had been secured before the frost occurred.

Corn is nearly all cut and shocked. In some sections the yield will be very good; but, due to the drouth, the crop as a whole will be considerably below the average.

Tobacco has been cut and housed and is generally reported to be curing nicely with a good color. Tobacco suffered from various causes during the season. The drouth at the time of setting out interfered with getting a good stand; grasshoppers immediately attacked it, and, later, worms were very bad; the protracted drouth in the latter part of the season caused some firing and premature ripening; but in spite of all these perverse conditions, some localities report a good yield and the crop, as a whole, will probably be between 70 and 80 per cent.

Sweet potatoes are a very fair crop, but Irish are very poor in most sections. Apples and pears are very poor in yield and quality.

Due to the protracted drouth of the past two months, pastures are very poor and water for stock has become very scarce in some localities.

Farm work is well up except plowing for winter wheat. The ground has been too dry in most places to do much plowing, but the showers during the past week have temporarily relieved this and plowing and seeding are now going on.

Unanimous Verdict.

From our many articles the past few weeks received from various sources it will be seen that the comedy farce, "A Wise Woman," is a strictly first-class attraction with more originality and novel features than any company that has yet visited us. It remains to be seen how they will be appreciated.

Will have a good car of cabbage to-day which is good for krout, and also a car of bananas.

A GENTLEMAN

Sojourning in Brooklyn some years ago desired on a Sabbath morning to hear the late Rev. Henry Ward Beecher preach. He asked a little urchin on the street to direct him to Mr. Beecher's church. The little fellow said: "Mister, do you see that crowd?" "I do," answered the gentleman. "Well, mister, follow it, and you'll get there."

IF YOU WANT THE BEST IN CLOTHING,

Furnishing Goods and Men's and Boys' SHOES, follow the crowd and you'll land in the right place. Were it not that we are awfully bashful we would tell you of the compliments showered upon us by the many who have looked over our stock. Our windows, to some extent give you an idea what we have. In passing our house, take a peep. You will see stuff that will interest you.

We are sometimes asked: "Do people read and believe your advertisements?" Well! If you would have looked in on us in the past ten days (since the weather turned cool) you would have concluded that our advertisements and our merchandise are credited, for notwithstanding we employ more salesmen than all the other clothing houses in Maysville combined, we were unable to wait on everybody. Mothers, we want you to see our

FISCAL COURT.

Business Transacted at Tuesday's Session of the October Term.

The Issue of the \$60,000 Turnpike Bonds Noted of Record—Claims and Accounts Allowed—Other Business.

The October term of the Fiscal Court convened Tuesday, Judge Newell presiding.

Judge Newell stated to the court that the \$60,000 of free turnpike bonds had been issued and sold to C. D. Pearce at their face value, and that with the proceeds the Germantown, the Lexington and the Mt. Sterling pikes had been purchased, and the balance of said sum (\$3,700) had been placed to the credit of the free pike fund. His receipt from the County Treasurer for the money was also filed. The report was accepted and filed.

Dr. E. C. Dimmitt allowed \$100 for services in diphtheria cases.

The sum of \$540 was ordered paid to E. A. Robinson, James N. Kirk and Samuel M. Hall, to reimburse said parties for money expended in the turnpike settlement.

The proposition of the Bank of Maysville, Union Trust Company and Mitchell, Finch & Co.'s Bank, agreeing to an assessment of two-thirds valuation on their franchise taxes, less their tangible property, was accepted. This matter was afterwards reconsidered, however, and the question was referred to the County Attorney for his opinion as to whether such acceptance would be legal.

Sheriff Perrine filed his report of the sale of shot guns. The amount received for the guns, \$296, was ordered paid into the county treasury. Mr. Perrine was allowed \$4 for selling the guns.

The contract with Dr. Salisbury for the pauper medical practice in Magisterial district No. 3 was accepted.

The Germantown, Minerva, Dover and Maysville Telephone Company was granted permission to erect poles along certain turnpikes.

LOUISVILLE TOBACCO MARKET.

Inferior Grades Formed a Large Portion of the Offerings Last Week, and There Was Some Irregularity.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 2,515 hhds. with receipts for the same period 790 hhds. Sales on our market since January 1st, amount to 126,441 hhds. Sales of the crop of 1898 on our market to this date amount to 124,882 hhds.

Our market last week showed some irregularity. The offerings on Wednesday amounted to about 1,000 hhds. It was the general opinion of the warehousemen selling late in the day that the market lacked the vim and snap that characterized it this day last week. The offerings have contained a very large proportion of common, funk, nondescript sorts, and these have sold a few bids lower. Colory lugs also seemed to be somewhat neglected. In cases where declines were decided they were promptly met by rejection. When good, useful leaf and lugs and dry, sweet order appeared, they were readily taken at from \$14 to \$18.50. One of the houses belonging to this company (the Farmers' house) sold a lot of seventy-nine hhds., composed of leaf, lugs and trash, packed by J. H. Richard, of Bath County, that averaged \$10.51. This sale was very satisfactory to both the warehousemen and owner.

The following quotations fairly represent our market for hurley tobacco 1898 crop:

Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whisky or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free on receipt of stamps to pay expense of mailing only.
